

## ***Register today for the Habitat Restoration Workday at Kingman Island***

- **WHEN:** Saturday, May 20, 2023, 9:00 AM-Noon
- **WHERE:** Langston Golf Course Driving Range: 3047 Benning Rd NE, Washington, DC 20002
- **HOW:** [CLICK HERE](#) to register.
- **ALL DETAILS** are on the registration website.

Kick off Laudato Si' week by helping to restore our river. Volunteers will join the Anacostia Watershed Society (AWS) and [National Links Trust](#) (NLT) for a Habitat Restoration Workday! During this workday you will help AWS with our invasive plant control and revegetation efforts along the riverside area of Kingman Island at Langston Golf Course. This is part of a natural resources management plan for the golf course in partnership with National Links Trust. By participating in this project, you will not only have the opportunity to learn about invasive plants and the ecology of the Anacostia River, you improve the habitat for wildlife and the water quality of the Anacostia River. If you have questions, please email our Creation Care Team Co-Chairs [Phil Downey](#) and [Simone Seym](#).
