

Care for Creation
GREEN TEAM
CATHEDRAL OF SAINT MATTHEW THE APOSTLE

***Register now for our 2nd annual Green Team River Tour
Saturday September 9, 5:00-7:00pm***

The St. Matthew's Creation Care Green Team invites you to an evening of paddling on the beautiful Anacostia River. A river guide from the Anacostia Watershed Society (AWS) will lead us on a scenic educational tour. The Anacostia has changed dramatically over the last 400 years – from a place of quiet natural abundance and American Indian settlements to a colonial seaport and bustling corridor in the nation's capital. Exploring the Anacostia River by paddling offers a way to get to know the river and its resources.

[Use this link to register](#) and get more details about the event, the location, etc. We will leave from the canoe landing at Bladensburg Waterfront Park (4601 Annapolis Rd, Bladensburg, MD 20710) at 5:00pm. The event is free but consider making an optional donation to support AWS and to cover some of the cost (details on the registration webpage). See you on the water!
